NUNCIO NOT SENT

Cardinal Del Val Talks of Visit to Roosevelt.

NO MESSAGE FROM THE POPE

Papal Secretary of State Declares Any Significance Should Be Disavowed—Mayor of Rome Gets Letter from Col. Roosevelt Expressing Thanks for Courteous Reception.

Rome, April 17.—In an interview to-day Cardinal Merry del Val, papal secretary of state, informed a correspondent that he did not know of the visit of Mr. Pignatelli, papal nuncio at Vienna, to Col. Roosevelt until he was informed yesterday by the correspondent. He added: "The nuncio did not ask for instructions and I did not give him any. The nuncio, as doyen of the diplomatic corps, attended the reception given by his American colleague, Ambassador Kerekes, where he met Mr. Roosevelt, whom he had no reason to shun. The visit is in no wise significant. The nuncio had nothing to say to Mr. Roosevelt from the holy see. If any significance is given to the visit it should be promptly disavowed."

The cardinal, alluding to Roosevelt's stay in Rome, told the correspondent that he received by mail Roosevelt's visiting card, printed in Italian, the card bearing the printed name Theodore Roosevelt and the words, "Per Commiato," meaning to take leave, written thereon.

Mayor Hears from Colonel. Mr. Roosevelt has sent the following letter to Mayor Nathan, mayor of Rome, dated Venice, April 14:

My Dear Mayor Nathan: On leaving Italy let me thank you, and through you the council and community of Rome, for the great courtesy shown me throughout my stay in the Eternal City, and especially your delightful dinner. I hope the gods have forgiven me my polio speech, which I had to get you, who knew them, to interpret. I hope to see you in America. It would be a genuine pleasure to renew our acquaintance. With all good wishes, faithfully yours,

THEODORE ROOSEVELT.

The mayor translated the letter and sent it to the newspapers, but instead of "delightful dinner" he said "delightful hospitality," suppressing the word "dinner," because as a function the banquet was a complete failure.

STAY OUTDOORS AND BECOME BEAUTIFUL.

From the Philadelphia Times.

Half the evils and ills of humanity could be cured if more people realized the value of fresh air.

It is the basis of all beauty and health, and the girl who is endeavoring to procure a lovely complexion by the use of face lotions will find fresh air twice as efficacious.

When you are terribly fatigued try taking half a dozen long, deep breaths and see if you don't feel more like living.

When insomnia has you in its grip try breathing deeply and regularly as you lie in bed and you will be surprised how easily sleep will come.

Nervousness can be cured by forming the habit of breathing deep and long, and one medical authority prescribes it in his schedule for nervous women.

All singers are invariably high-chested and free from colds or chronic coughing spells. It is because they have learned to breathe from the waist instead of the top of the lungs, as the majority of people do.

To breathe deeply is to stimulate the heart and circulation.

It means a full, high chest and broad shoulders.

It means practical immunity from the dangers incurred by exposure.

It means a good carriage and well-poised head.

And best of all, it means perfect physical health.

A good remedy for cold on the chest is vasoline and turpentine well rubbed into the chest and between the shoulders in the back.

Chosen heels, quite high, seem to predominate among shoes, and there are also many military heels quite high.

HUNGARIANS CRY "LONG LIVE T. R."

then took Roosevelt and Kermit to an automobile. The fiddlers remained to collect pence.

The city of Pressburg turned out to a man. The mayor, the local orator, and Roosevelt again exchanged speeches. The drive to Count Apponyi's chateau lay through three villages—one Hungarian, one Slovak, and one German. The whole population turned out to welcome the visitor. At the first village no stop was made, as the place had been stricken with measles. At the other two, Roosevelt was received by the mayors or selectmen, dressed in the Sunday garb of workmen. Roosevelt replying, spoke in English, Count Apponyi translating for him. "Strive for liberty with religion, and help the weak without making them weaker" was Roosevelt's advice to the villagers, as he addressed them on the village greens.

People, Music, and Flowers.

Here the whole population of the villages were assembled, priests with their parishioners, teachers with school children, freemen in uniform, women, young and old, from the whole countryside, and always a band of fiddlers, who played patriotic airs. In each place a posy was presented to him, and a little speech of welcome made by one of the smallest school girls. Hungarian flags were everywhere. Here and there might be seen the proud possessor of an American flag. When the chateau was reached Roosevelt took lunch with a few of Count Apponyi's friends. Then there was an automobile ride to another railway station, a drive of an hour and a half, which was a repetition of the morning's programme. The party passed through two villages where the usual crowds had collected, and the usual speeches were made.

In one village a little boy got off a speech in English, saying: "I'm very glad to see you, Mr. Roosevelt. I am glad to see you in America. It would be a genuine pleasure to renew our acquaintance. With all good wishes, faithfully yours,"

DISTRICT CELTS TO MAKE TRIP

Arrangements Outlined for Irish Home-going This Summer.

Five Hundred Washingtonians to Visit Emerald Isle—President Kilkenny Speaks.

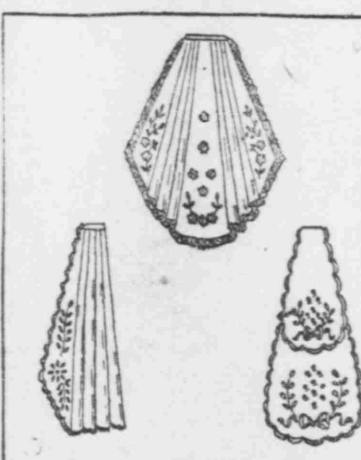

President Francis J. Kilkenny, of the Irish Home Going Association, announced last night at the concert given in Carroll Institute Hall by the Division No. 5, A. O. H., that more than 500 Washingtonians will make the trip to the Emerald Isle late in May or early in June.

Mr. Kilkenny, in a brief talk, outlined the plans for the trip, and told of arrangements being made in Ireland for the accommodation of the tourists. Reduced hotel and transportation rates have been received from the Hotel and Tourist Association of Ireland, and every convenience for sightseeing has been mapped out. A feature will be the automobile excursions from many of the large cities. Miss Gertrude M. O'Reilly gave an interesting lecture on "Irish folklore." The peculiarities and typical stories of this feature of Irish life were admirably told by Miss O'Reilly, who was in the costume of the Irish peasant woman of early days.

Other numbers of the concert programme were: "Mavourneen," Mrs. Nellie B. Keiser; "Kilmarney," Mr. Fitzgerald; "Last Rose of Summer," Miss Latimer; Miss Margaret O'Toole and Harry Wheaton Howard were accompanists.

There will be a full choral service at the church by the choir, augmented by additional chorists and supplemented by instrumental music of the harp and violin.

These will include Miss Margaret Drexel, a sister of the bridegroom, who has recently arrived from Europe; Miss Helen Vivien Gould, who will be introduced to society next season, and young Miss Edith Gould, sister of the bride, Miss Dorothy Randolph, of Philadelphia, who will marry John Fell, a cousin of the bridegroom Miss Elsie Nicoll, a daughter of Mr. and Mrs. Benjamin Nicoll, of New York and Lakewood; Miss Beatrice Claffin, a daughter of Mr. and Mrs. Arthur Claffin, of New York; Miss Hope Hamilton, a daughter of Mr. and Mrs. William A. Hamilton, of New York, and a cousin of the bride, and Little Miss Ellen Mackay, a daughter of Mr. and Mrs. Clarence H. Mackay, of this city.

Following the wedding, a reception will be given at the new home of Mr. and Mrs. George J. Gould, at 85 Fifth avenue, which is one of the palatial residences on Fifth avenue facing Central Park.

THIS MATTER OF EXERCISE.

Danger of Physical Culture Lies in Taking Too Little of It.

The worst error of exercise, the most dangerous fad of physical culture, is not to take enough of it, and to sneer at every form of it that does not bear the dollar mark, says Dr. Wood Hutchinson in Outlook. By one of those cynical poetic justices of nature the very men who denounce all physical culture and recreation as fads are those who pay the heaviest personal penalty for this delusion. They use the vigor that they have gained in early youth in Nature's open air school to chain themselves to the desk, to bury themselves in dunglike offices or ateliers, workrooms twelve or fourteen hours a day. They "feel fine" and are sure they are going to live to be a hundred; but one day, to their astonishment, a little artery, whose coat has been hardened for twenty years unnoticed, becomes so brittle that it snaps suddenly—and down they go with a stroke of paralysis, like a winged duck. It is never safe to jeer at the gods, whether the imaginary ones of Olympus or the real ones of modern science.

The men who jeer loudest at physical culture and who sarcastically advise college and high school students, ambitious for gymnasia or athletic fields, to "go and get a buck saw and a cord of wood," or a hoe and a potato patch and develop their muscles "like I did when I was a boy" are the very ones who die suddenly when they should be in their prime, for lack of exercise and open air recreation. It is really an astonishing thing how many giants of industry and transportation, particularly executive railroad men, die, or suddenly go to pieces, between 50 and 60 years of age. It is a common saying in railroad circles that a big general superintendent or department chief will seldom live beyond 45 to 55 years of age. Many break down before that.

FOR PAN-AMERICAN COLLEGE.

Governor of Porto Rico Asks Aid Through War Secretary.

San Juan, P. R., April 17.—Gov. Colton has given out a statement in which he says he asked Secretary of War Dickinson to include in the Olmstead bill an appropriation of \$100,000 for a Pan-American university, the existing Porto Rico university to serve as the nucleus for the new institution. W. J. Bryan will appear before the committee on insular affairs to urge the establishment of the university.

The work of taking the census has begun here. There are 1,000 enumerators, many of whom are Porto Rican women. No trouble is expected.

Of the many old combinations in spring millinery, none is more attractive than the blending of velvet and lace.
